

## Visiting the past MP Bahia Hariri examines ancient artifacts unearthed in Sidon

Photo by Mohammed Zaatar

Sidon MP Bahia Hariri visited the "Freres" excavation site near the fortress in Sidon and examined archaeological relics discovered at the site. Archaeologist and field supervisor Dr. Claude Serhal recently announced the discovery of a small plate with cuneiform writing dating back to the 4th century BC. The excavations are financed and supervised by the British Museum with the help of the British Academy and British businessmen from London.
